Tips to shine

Things you should do	24
----------------------	----

Hi, a very GOOD DAY to you from the [Alma Mater](#) Team!!!

You have arrived! And certainly it is a matter of self-appreciation for you that you have taken the most important decision of your life to go on a guided tour of career planning program with us. Have a hot coffee and relax! You are about to know some amazing facts about yourself and in the due course, about us too.

"I am confused, what do I become so that I am successful?"

"I want to be a writer, but my father wants me to be an engineer like him"

"My parents want me to become a Management graduate, but I want to research. What should I do?"

"Will I be able to complete my engineering at the small budget that my father has set for my studies?"

"I want to study medicine, but my parents would not allow me to go out of the city. Can you suggest some colleges near my city?"

Have you heard these before?

"My school life is about to end with very dry career options from my Teacher, parents, uncle and aunty. What should I do?"

"I want to become an Doctor, will I be successful?"

"Amit, my elder brother is pursuing engineering. But I want to become a pilot. Can I become one?"

We are sure that one of these questions or most of them would have touched you at one point of time or the other. Lets go ahead and see how is "Career Choice" done today.

Prevalent Trend

Would you be surprised if you hear these words?

"Hey, Rahul, Ram and Ganesh are going for engineering. I have also heard Atul uncle say that Computer engineering is much in demand. Anand uncle, the computer engineer, said that he earns Rs.50,000/- a month!! Let us also do Computer engineering. What do you say?"

"Ram dropped out of engineering and Anand Uncle is not happy in his job".

Ideal Way

Ideally students should choose careers and courses as per their abilities, personalities and area of interest. It will help them to grab the best opportunities to choose best suited jobs in the market and ultimately give them bright careers.

In addition, India's renowned educationist, psychologist and technologists have added their mainstream work and successful researches to make it a very practical and efficient scientific career recommendation engine. The amalgamated efforts are quite visible through our three Aces. Lets now take a tour in the Ace World.

Alma Mater is based on this equation. The other foundation is, the research on almost 1 million wish list of students across the country done.

Alma Mater's 3 Aces

The 3 Aces of our product are an amazing solution to your wishes to locate a bright career. Have a look.

1 Omniscan technology

Alma Mater unique, proprietary and under Patent process, Scientific Recommendation Engine does a 360 degree mapping of a student's profile on the critical aspects that are ideally required to decide a Career, Course and College.

1. Thinking ability
2. Ambition
3. Eligibility - Academics & Physical
4. Opportunity
5. Personal
6. Budget
7. Geography

2 365 days Profile Monitor

We track and preserve the history of your performances and profiles at important stages of your Career planning for further reference to plan your career.

1. 8th to Post graduation

3 C-Planner

365 days of online tool to:

1. Explore your career through the vast career databank
2. Change your career foundation priorities and makes you set your career goals
3. Lead you to select Right course, college and a Bright career
4. Confirm facts and figures about your career choice through interaction with experts of your choice

Best of luck!!

Your innate strengths will always give you the best!

We at Alma Mater's constantly strive to help the students to excel in their life by taking the informed decisions. After the successful launch of our Career Guidance Reports for 10th to 12th students and the Foundation Report for the 8th and 9th standard students, we have come up with a unique product “Study Habits Report” for the students of 10th to 12th standard. This report is one more tool or perhaps the most important tool for the students to Boost their Academic Performance.

EXPERTS SAY...

“One of the most important reasons for learning to study is that it helps to build self-confidence. When you “know that you know” it makes it easier to achieve the goals that you set for yourself!”

“The difference between the highest- and lowest-achieving children is the degree to which they become self-regulators of their own learning” Biemiller & Meichenbaum

This report is designed to help you develop effective study skills. This is not a magic formula for success in preparing for tests, or written or oral assignments.

Studying requires action and practice! However, by understanding self and then using the techniques described in this report and by applying yourself, you can gain a valuable edge in understanding your study material, preparing for tests, and, ultimately, learning. This report contains some of the best and most effective techniques of successful students, who typically have high grades in high school and college regardless of the courses they take. So understand your abilities and your study techniques, think about where you stand, apply the suggestions we have provided and prepare to become a successful student!

If you have questions, comments or suggestions, get in touch with us.

What is Aptitude?

Aptitude is an innate or inborn capacity for learning. Alma Mater's Aptitude test assesses an individual's strengths and weaknesses in six key abilities.

Your Aptitude Test Result

- 1 Your performance is excellent in Numerical ability.
- 2 You have been assessed very good in Reasoning ability.
- 3 You have been assessed good in Verbal ability.
- 4 You have been assessed very good in Spatial ability.
- 5 You have been assessed very good in Rapid Evaluation Ability.
- 6 You have been assessed good in Cognitive Ability.

Numerical Ability

Meaning

Numerical ability refers to the skill of using numbers quickly and accurately, in tasks involving mathematical operations. This is a reflection of your comfort with numbers and calculations.

Application

In our daily life, numerical ability is essential to organize numerical data for simple calculations. In academics, problem solving and precise measurements are required. Example: Finding out the area of a circle, solving SUDOKU etc. reflects numerical ability.

With High Rating

Individuals with high ability can generally excel in areas like Science, Finance, Engineering, Research and many more.

Reasoning Ability

Meaning

Reasoning ability means applying logical thinking before coming to a particular conclusion by observation of given information or a subject matter.

Application

Every subject requires you to co-relate and interpret theories and other concepts. After reading any information, you start analysing and co-relating the data. Example: Reading about gravitational pull and reasoning why apple falls only towards the earth.

With High Rating

Individuals generally excel in Science, Management, Auditing, and Research fields.

Your Rating in Numerical Ability is Excellent.

Strengths & Shortfalls

Your rating suggests that you might like Mathematics as well as you enjoy it. You can utilize this while solving complex problems. It also suggests that you might not be facing difficulties when numbers are concerned.

Improvement

However, you can still enhance this by understanding concepts in mathematics and try to solve the problems by using different methods.

Your Rating in Reasoning Ability is Very Good.

Strengths & Shortfalls

It might indicate that you are thinking logically. This helps in any subject where analysis is important.

Improvement

You can enhance this ability by reading small passages and concluding the information gathered. Start enjoying questions like when, where, why, who, what and how.

Verbal Ability

Your Rating in Verbal Ability is Good.

Meaning

Verbal ability measures your degree of comfort with the English language i.e., choosing and spelling words appropriately, applying correct grammar, understanding word meanings and relationships and comprehending detailed written information.

Application

When we want to express precisely on any topic, this ability is very useful. Example: Participating in a essay writing competition, a leading journalist conducting a debate on national television.

With High Rating

Individuals generally excel in fields such as Social Studies, Languages, Literature, Law, Education and Journalism and in various forms of communication and media.

Strengths & Shortfalls

It indicates that you are good at language but for developing a career via languages you have to develop command over it. You may find it difficult to use precise words.

Improvement

Read at least 10 pages suggested for extra reading in your text book (below every chapter). You can also elaborate various day to day incidences by writing at least 250 words.

Spatial Ability

Your Rating in Spatial Ability is Very Good.

Meaning

Spatial ability is concerned with understanding of space and dimensions, visualizing objects in 2-D and 3-D perspective. It is about understanding the orientation of the figural patterns.

Application

It is necessary in day-to-day life to make a judgment about space with respect to length, width, depth, distance, speed etc. This ability is necessary for all sorts of academics in which understanding and use of 2-D and 3-D is required. Example: If you are standing in front of a big hall, what can be probable height, width and breadth in feet?

With High Rating

Individuals generally excel in fields such as Architecture, Design, Animation and Engineering.

Strengths & Shortfalls

This indicates that you have good judgment of space with respect to length, width, depth etc and also visualize them in 2D and 3D. This also indicates that you will not have any difficulty to excel in the areas like Architecture, Design where 2D, 3D skills are required.

Rapid Evaluation Ability

Your Rating in Rapid Evaluation Ability is Very Good.

Strengths & Shortfalls

This might indicate that you are able to handle data with speed and accuracy and can manage such tasks effectively.

Improvement

You can still enhance this ability by handling large data gathered by reading and paraphrasing.

Meaning

In Rapid Evaluation ability, the perceptual speed and accuracy is measured by items in which the student must rapidly assess the similarity or difference of paired groups of letters or numbers.

Application

Rapid Evaluation ability is important to succeed in many tasks that involve record-keeping, listing and keeping inventories. Rapid Evaluation Ability is required in dispatching, coding and other data management jobs.

With High Rating

Individuals generally excel in speedy and accurate recall of the exact data received from the surroundings. It helps to avoid silly mistakes and take quick actions/find solutions.

Cognitive Ability

Your Rating in Cognitive Ability is Good.

Strengths & Shortfalls

This indicates that you like to learn new things but need keen observation and then need to express it in your own words.

Improvement

You can enhance this ability by reading, listening, thinking over the information gathered and solving the problems independently. Reading and writing summary of whatever you have read will help you in the long run.

Meaning

This ability refers to the set of abilities, skills or processes we need to carry out any task (complex or simple). They have more to do with the mechanisms of how we learn, remember, problem-solve and pay attention

Application

This ability is essential in all learning situations and to complete all sorts of academic courses. Example: You are asked to talk in your own words on a new science concept taught in your class.

With High Rating

An individual gets an extra edge in all learning situations and also completes any academic course very well.

Interest is the tendency to attend to and be stirred by a certain object, event or process. It is accompanied by 4 attributes:-

- Attention and feeling for an object
- Intensity (preference for some activities over others) and
- Duration

Your interest is always at the core of your career decisions and that is why it is absolutely necessary to identify your interest in a particular area. People whose interest matches with their occupation find greater deal of satisfaction; it makes them more productive and also results in higher levels of motivation. Checking your 'core interest' through Interest Test results in increased chances of success in the career.

Your interest graph shows an inclination towards: **Social Sciences and humanities, Business and Administration.**

Science and technology

Science is study of physical world based on observation and experiment while Technology is application of scientific knowledge for practical purposes. Individuals scoring high on Science and Technology interest category enjoy investigating, researching, analyzing and experimenting.

Your Interest is Low in this category.

May be you don't like experiments in school laboratory. Might also be that you are less interested in analysing, rationalising given facts. Mostly you like to read novels than collecting information about plants and animals.

Creative

Creative means having the ability to create something novel or original which involves imagination and innovation. It can be observed in various forms like creative drawing, thinking, writing, visualizing or actually creating some art form etc. Individuals scoring high on the Creative interest category enjoy expressing themselves creatively, and considering and implementing innovative solutions.

Your Interest is Low in this category.

It could be possible that your imagination is good but you don't enjoy expressing your ideas through various artistic forms and need help from someone to illustrate the same in artistic forms. Perhaps you don't enjoy drawing, designing or decorating.

Business and Administration

Business and Administration means managing and organising a commercial activity. It includes planning, directing, controlling, coordinating, budgeting and decision making. Individuals scoring high on the Business interest category enjoy working with people in terms of leading, discussing ideas and inspiring others into action.

Your level of Interest is High in this category.

You may like to read about business news and money matters. Or you go on discussing economic problems. Seemingly, it interests you to make budget of household things. You take keen interest in activities like disciplined tasks, trekking and leading the group.

Social Sciences and humanities

It includes study of society and human thought, culture and behaviour. Humanities explore human condition using theories, methods and research findings related to human behaviour and interaction. Individuals scoring high on Humanities interest category enjoy reading articles on social issues, reforms or about different cultures.

Your level of Interest is High in this category.

Maybe you like to discuss problems and difficulties of others and advise them. Probably, you prefer to study various aspects of human mind and societal customs, rules, traditions and norms. You might be curious to know human origins or how different cultures have evolved.

Service Industry

It's an industry that provides services to customers according to their need. Individuals scoring high in Service Industry interest category enjoy providing satisfactory services to various categories of customers as per their needs.

Your level of Interest is Medium in this category.

It could be possible that you don't enjoy understanding various needs of people and taking care of them in detail but you can manage such situations without much efforts and reluctance.

Study Habits

Alma Mater's Study Habits test assesses an individual's style, techniques and constancy about study skills and methods that one has formed during school years. The test evaluates an individual on three key elements i.e. Learning techniques, Examination techniques and Memory. Good study habits are considered essential for acquiring good grades and also help in effective learning to secure a bright career.

Learning Techniques

Your Rating In This Category Is Good

It is a combination of your methods and ways for effective learning. It includes

- Time management
- Reading habits
- Note taking
- Learning motivation

Memory

Your Rating In This Category Is Good

Memory is the ability to remember subject oriented information, experiences and people. **Improving memory means learning better.**

Examination Techniques

Your Rating In This Category Is Fair

Examinations need careful preparation, many feel nervous on the examination day but with careful revision and good examination techniques you can do well.

Learning Techniques

It is combination of your methods and ways for effective learning. It includes Time management, Reading habits, Note taking and Learning motivation.

Your rating in this category is Good

Time Management

Judicious usage of available time by scheduling helps to adjust study periods and extracurricular activities according to the need of a student.

Suggestions

- **Prepare and Follow "To Do List"** - as a Daily/weekly planner to write important study activities. Do the same for monthly activities so that you can plan in advance.
- **Avoid Interruptions and Distractions** - Learn to say 'No' according to your study plan to basic distractions e.g. internet, games mobile, TV etc.

Reading Habits

Reading involve various aspects such as vocabulary, reading speed, comprehension and selection of reading material.

Suggestions

- **Reading Speed** - Generally, one reads 100 words per minute in mother tongue and 50-75 in any other language. As a habit, read few words; understand their meaning and usage on a daily basis.
- **Read Early in the Day** when your mind is clear and sharp as your grasping is at its best.
- **Read in the Proper Position** - Angling your reading material at 45 degrees improves reading speed and reduces eye strain. Avoid reading on a bed. Always prefer to sit on a chair.

Note taking

1. It improves attention, concentration and memory. Reinforces learning of the material and makes reading a more active process.
2. It provides concise version of all the essential information needed for quick revision

Suggestions

- **Paraphrase in own words**, write key words and summarize to make personal notes. The best effective order while taking notes is: Listen ->Look- ->Think- -> Understand --> Paraphrase --> Make Notes
- While reading, underlining important points and preparing notes is helpful.

Learning Motivation

Desire to learn is a determining factor in learning. Learning is quick and retention is longer if interest and desire are high. Capacity to learn is unique. While some are group learners, others are self learners. Determine your true learning style and go ahead brilliantly.

Suggestions

You can boost your motivation in some of the following ways:

- Set short-term goals and give yourself a reward when you achieve a target.
- You should target for zero option for all subjects.
- Find a source of inspiration: who or what could inspire you to complete your goals?
- Positive self-talk like "I am going to prepare perfectly for this exam." improves your motivation.

Memory

Meaning

Memory is the ability to remember subject oriented information, experiences and people.

Improving memory means learning better.

Your rating in this category is Good

Suggestions:

Some techniques to improve your memory-

- **Relax Your Mind** – Being relaxed allows us to think clearly. Thus, we tend to perform effectively and efficiently. Under tension we struggle to remember information..
- **Use Your Body and Senses to Improve Your Memory** - It has been said that people remember 90 percent of what they do, 75 percent of what they see and 20 percent of what they hear.
- **Mental Imagery** - Use visualization by creating mental images that you can associate with the information you are trying to learn. The more visual you can make the learning process, the easier to remember the information.
- **Acronyms** - Use of acronyms can be helpful when a list of facts or sequence of items must be remembered. Acronyms can be created to remember a specific item. For example, VIBGYOR to remember names of colours– violet, indigo, blue, green, yellow, orange and red.
- **SQ3R Technique** - A reading and study skill system which helps in improving memory i.e. survey of study material then forming questions on it followed by reading, recalling and reviewing the material helps in better recall.

Examination technique

Meaning

Examinations need careful preparation, many feel nervous on the examination day but with careful revision and good examination techniques you can do well.

Your rating in this category is Fair

Suggestions:

Before the exams-

- Devote more time and attention towards weak areas
- Even Under nervousness/ pressure never study the entire night before a paper. Mind gets clogged and you might forget what you knew nicely also.
- Having a calm, cool and relaxed attitude towards examination is beneficial and can be gained only after good preparations.

Once you get the question paper-

- Read the entire exam paper carefully.
- Mentally plan how you will answer the paper with respect to allotted time. Start with the easiest questions.
- If you are running out of time and you can't write sentences then just write in bullet points. If you don't have time to do the calculations, write and explain what calculations you would do.
- Never leave an exam hall early. You can utilise available time for checking and rechecking. There is always something you can do to improve your answer sheet.

Nandan Mundhada 10th Std

Your top 2 aspired careers are assessed on the basis of your results in Aptitude Tests. If you have strong interests for a certain career, you still need the relevant abilities to support that career.

Architecture

*Your suitability for this career – **Perfect!***

As indicated by you, your aspiration is in pursuing Architecture.

This career can be pursued by choosing Science stream.

The combination and level of abilities that you possess makes this career a perfect match for you.

However, if you really want to touch the sky, you need to maintain the performance standard in your studies as well as in the Reasoning ability, Numerical ability, Cognitive Ability, Rapid Evaluation Ability.

Chartered Accountancy

*Your suitability for this career – **Promising!***

As indicated by you, your aspiration is in pursuing Chartered Accountancy.

This career can be pursued by choosing Commerce stream.

The combination and level of abilities that you possess makes this career a promising one for you.

However, if you want to make this a 'Perfect' career choice, you will have to improve the performance standard in studies and need to work on Rapid Evaluation Ability, Verbal ability, Reasoning ability, Numerical ability, Cognitive Ability.

nandan mundhada 10th Std

Alma Mater's top three recommendations are based on your results in Aptitude and Interest Tests.

Arts and Humanities

The combination and level of abilities that you possess makes this stream a perfect match for you.

Your Numerical ability is Excellent, Verbal ability is Good, Reasoning ability is Very good, Rapid Evaluation Ability is Very good, Spatial ability is Very good, Cognitive Ability is Good.

However, if you really want to touch the sky, you need to maintain the performance standard in your studies as well as in the Numerical ability, Verbal ability, Reasoning ability, Rapid Evaluation Ability, Cognitive Ability.

Commerce

The combination and level of abilities that you possess makes this stream a perfect match for you.

Your Numerical ability is Excellent, Verbal ability is Good, Reasoning ability is Very good, Rapid Evaluation Ability is Very good, Spatial ability is Very good, Cognitive Ability is Good.

However, if you really want to touch the sky, you need to maintain the performance standard in your studies as well as in the Numerical ability, Verbal ability, Reasoning ability, Rapid Evaluation Ability, Cognitive Ability.

Science

The combination and level of abilities that you possess makes this stream a perfect match for you.

Your Numerical ability is Excellent, Verbal ability is Good, Reasoning ability is Very good, Rapid Evaluation Ability is Very good, Spatial ability is Very good, Cognitive Ability is Good.

However, if you really want to touch the sky, you need to maintain the performance standard in your studies as well as in the Numerical ability, Verbal ability, Reasoning ability, Rapid Evaluation Ability, Cognitive Ability.

Overview

“The arts and humanities define who we are as people. That is their power -- to remind us of what we each have to offer, and what we all have in common. To help us understand our history and imagine our future. To give us hope in the moments of struggle and to bring us together when nothing else will.” — First Lady of USA Michelle Obama. It is considered a highly valuable stream for many generations. If you are the person who has innate inclination towards languages, history, politics and human behaviour, then this could be the most suitable field for you. In addition, you must have keen interest and liking towards the humanities to take up Arts. Now- a-days Arts and Humanities stream is not only meant for those who scores less or just below first class grade, even the top rankers are opting for this stream. It is a matter of pure choice, and area of interests.

Skill set

- Acquiring information
- Creative thinking
- Keen interest in cultures and languages
- Organizing and using information
- Interpersonal relationships and social participation

Scope and opportunities

Arts & Humanities can be considered as the only stream where there is something to learn for everybody. The subjects range is quite widespread - from Languages (both Indian & foreign) and Linguistics, to Literature, Politics, Economics, History, Mathematics and Psychology, as well as Creative Arts and the Media. You can go for Arts Stream that matches your interests, or you can think about the area you would like to work in after you graduate - such as journalism, translation or the government jobs.

Overview

Commerce is the cornerstone of the modern economy. Commerce acts as a whole system in any pivotal economy and mainly deals with exchange of goods or services for money or business, usually on a scale large enough to require transportation across the city, state or national boundaries. It involves and impacts on the economic, political, legal, social, cultural and technological activities that Push commercial interactions around the world. Commerce as a subject has been gaining fast popularity as a reliable career choice in India.

Skill set

- Critical and creative thinking
- Numerical
- Research and analysis
- Communication

Scope and opportunities

You will be learning subjects like Economics, Accountancy, Finance, Secretarial practice, Business mathematics, Organisation of Commerce, etc. Commerce offers foundation for many professional careers like Finance, Accountancy, Tax Practitioners, Banking, Broking and Research and many more.

Overview

Science changes the way we live our life. The pace of our lives has been drastically increased because of science. It is a proven fact that we either carry or use science in our day to day life. However, do we think about how science affects our life and daily routines? Science generally consists of three major headings: physics, chemistry and biology. The scientific process consists of observing the physical world, formulating a hypothesis, interpreting the results, forming a conclusion and in some cases applying the end results.

Skill set

- Flair for basic numeracy and statistics
- Good command over verbal ability
- Ability to apprehend technical and scientific words
- Writing style should be precise and informative
- Familiarity with SI units (modern form of the metric system) and use of scientific symbols

Scope and opportunities

Generally science stream is full of many courses. It is an evergreen stream; hence, choosing any desired course will provide you a bright scope and job satisfaction.

Your Personal Details

Name	Nandan Mundhada
Date of Birth	13-11-2004
Studying in	10th Std.
School	Yavatmal Public School
Disability	Physically Fit

Your Academic Details

Qualification Status	Appearing
