Tips to shine

Things you should do	29
----------------------	----

Hi, a very GOOD DAY to you from the [Alma Mater](#) Team!!!

You have arrived! And certainly it is a matter of self-appreciation for you that you have taken the most important decision of your life to go on a guided tour of career planning program with us. Have a hot coffee and relax! You are about to know some amazing facts about yourself and in the due course, about us too.

"I am confused, what do I become so that I am successful?"

"I want to be a writer, but my father wants me to be an engineer like him"

"My parents want me to become a Management graduate, but I want to research. What should I do?"

"Will I be able to complete my engineering at the small budget that my father has set for my studies?"

"I want to study medicine, but my parents would not allow me to go out of the city. Can you suggest some colleges near my city?"

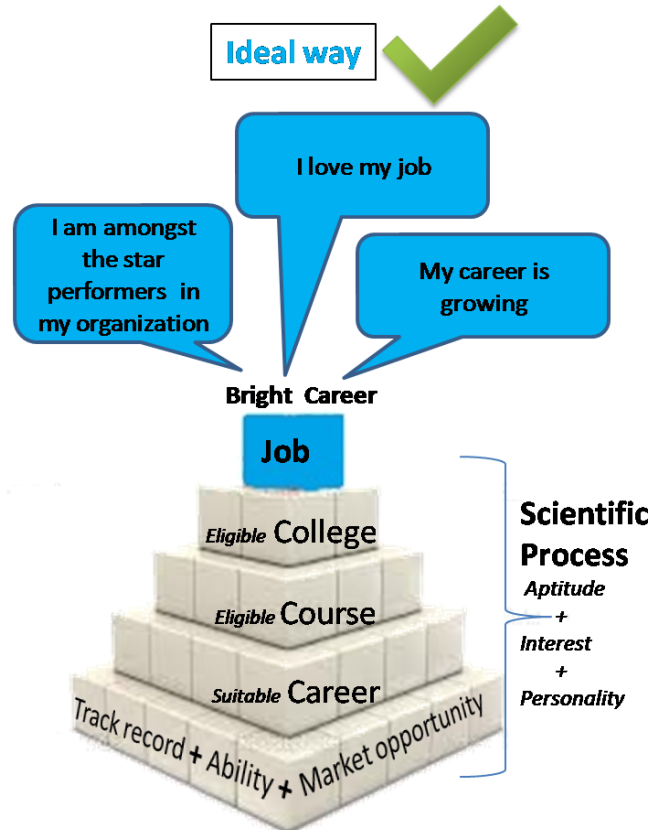

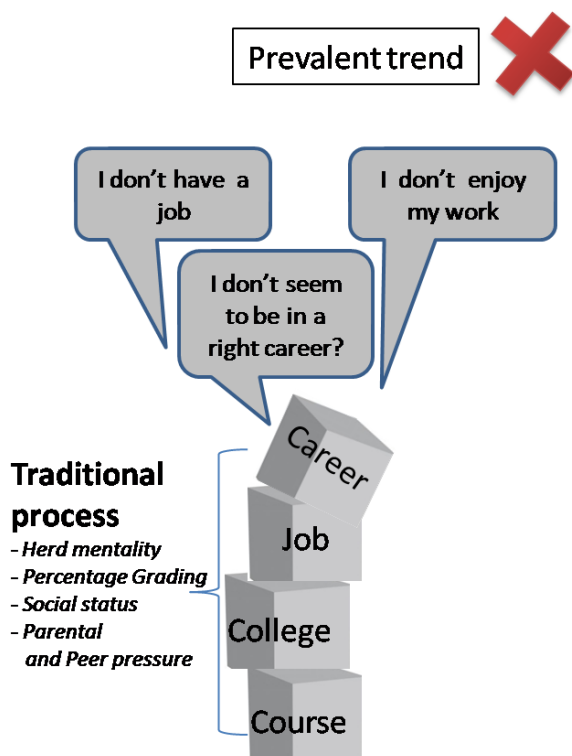

Have you heard these before?

"My school life is about to end with very dry career options from my Teacher, parents, uncle and aunty. What should I do?"

"I want to become an Doctor, will I be successful?"

"Amit, my elder brother is pursuing engineering. But I want to become a pilot. Can I become one?"

We are sure that one of these questions or most of them would have touched you at one point of time or the other. Lets go ahead and see how is "Career Choice" done today.

Prevalent Trend

Would you be surprised if you hear these words?

"Hey, Rahul, Ram and Ganesh are going for engineering. I have also heard Atul uncle say that Computer engineering is much in demand. Anand uncle, the computer engineer, said that he earns Rs.50,000/- a month!! Let us also do Computer engineering. What do you say?"

"Ram dropped out of engineering and Anand Uncle is not happy in his job".

Ideal Way

Ideally students should choose careers and courses as per their abilities, personalities and area of interest. It will help them to grab the best opportunities to choose best suited jobs in the market and ultimately give them bright careers.

In addition, India's renowned educationist, psychologist and technologists have added their mainstream work and successful researches to make it a very practical and efficient scientific career recommendation engine. The amalgamated efforts are quite visible through our three Aces. Lets now take a tour in the Ace World.

Alma Mater is based on this equation. The other foundation is, the research on almost 1 million wish list of students across the country done.

Alma Mater's 3 Aces

The 3 Aces of our product are an amazing solution to your wishes to locate a bright career. Have a look.

1 Omniscan technology

Alma Mater unique, proprietary and under Patent process, Scientific Recommendation Engine does a 360 degree mapping of a student's profile on the critical aspects that are ideally required to decide a Career, Course and College.

1. Thinking ability
2. Ambition
3. Eligibility - Academics & Physical
4. Opportunity
5. Personal
6. Budget
7. Geography

2 365 days Profile Monitor

We track and preserve the history of your performances and profiles at important stages of your Career planning for further reference to plan your career.

1. 8th to Post graduation

3 C-Planner

365 days of online tool to:

1. Explore your career through the vast career databank
2. Change your career foundation priorities and makes you set your career goals
3. Lead you to select Right course, college and a Bright career
4. Confirm facts and figures about your career choice through interaction with experts of your choice

Best of luck!!

Your innate strengths will always give you the best!

We at Alma Mater's constantly strive to help the students to excel in their life by taking the informed decisions. After the successful launch of our Career Guidance Reports for 10th to 12th students and the Foundation Report for the 8th and 9th standard students, we have come up with a unique product “Study Habits Report” for the students of 10th to 12th standard. This report is one more tool or perhaps the most important tool for the students to Boost their Academic Performance.

EXPERTS SAY...

“One of the most important reasons for learning to study is that it helps to build self-confidence. When you “know that you know” it makes it easier to achieve the goals that you set for yourself!”

“The difference between the highest- and lowest-achieving children is the degree to which they become self-regulators of their own learning” Biemiller & Meichenbaum

This report is designed to help you develop effective study skills. This is not a magic formula for success in preparing for tests, or written or oral assignments.

Studying requires action and practice! However, by understanding self and then using the techniques described in this report and by applying yourself, you can gain a valuable edge in understanding your study material, preparing for tests, and, ultimately, learning. This report contains some of the best and most effective techniques of successful students, who typically have high grades in high school and college regardless of the courses they take. So understand your abilities and your study techniques, think about where you stand, apply the suggestions we have provided and prepare to become a successful student!

If you have questions, comments or suggestions, get in touch with us.

What is Aptitude?

Aptitude is an innate or inborn capacity for learning. Alma Mater's Aptitude test assesses an individual's strengths and weaknesses in six key abilities.

Your Aptitude Test Result

- 1 Your performance is excellent in Numerical ability.
- 2 You have been assessed very good in Reasoning ability.
- 3 Your performance is excellent in Verbal ability.
- 4 You have been assessed very good in Spatial ability.
- 5 You have been assessed very good in Rapid Evaluation Ability.
- 6 You have been assessed very good in Cognitive Ability.

Numerical Ability

Meaning

Numerical ability refers to the skill of using numbers quickly and accurately, in tasks involving mathematical operations. This is a reflection of your comfort with numbers and calculations.

Application

In our daily life, numerical ability is essential to organize numerical data for simple calculations. In academics, problem solving and precise measurements are required. Example: Finding out the area of a circle, solving SUDOKU etc. reflects numerical ability.

With High Rating

Individuals with high ability can generally excel in areas like Science, Finance, Engineering, Research and many more.

Your Rating in Numerical Ability is Excellent.

Strengths & Shortfalls

Your rating suggests that you might like Mathematics as well as you enjoy it. You can utilize this while solving complex problems. It also suggests that you might not be facing difficulties when numbers are concerned.

Improvement

However, you can still enhance this by understanding concepts in mathematics and try to solve the problems by using different methods.

Reasoning Ability

Meaning

Reasoning ability means applying logical thinking before coming to a particular conclusion by observation of given information or a subject matter.

Application

Every subject requires you to co-relate and interpret theories and other concepts. After reading any information, you start analysing and co-relating the data. Example: Reading about gravitational pull and reasoning why apple falls only towards the earth.

With High Rating

Individuals generally excel in Science, Management, Auditing, and Research fields.

Your Rating in Reasoning Ability is Very Good.

Strengths & Shortfalls

It might indicate that you are thinking logically. This helps in any subject where analysis is important.

Improvement

You can enhance this ability by reading small passages and concluding the information gathered. Start enjoying questions like when, where, why, who, what and how.

Verbal Ability

Meaning

Verbal ability measures your degree of comfort with the English language i.e., choosing and spelling words appropriately, applying correct grammar, understanding word meanings and relationships and comprehending detailed written information.

Application

When we want to express precisely on any topic, this ability is very useful. Example: Participating in a essay writing competition, a leading journalist conducting a debate on national television.

With High Rating

Individuals generally excel in fields such as Social Studies, Languages, Literature, Law, Education and Journalism and in various forms of communication and media.

Your Rating in Verbal Ability is Excellent.

Strengths & Shortfalls

It shows that you have a natural flair of using language effectively. You can easily express yourself in precise words; also understand and comprehend language well.

Improvement

However, you can still enhance this by keeping in touch with dictionary and thesaurus daily.

Spatial Ability

Meaning

Spatial ability is concerned with understanding of space and dimensions, visualizing objects in 2-D and 3-D perspective. It is about understanding the orientation of the figural patterns.

Application

It is necessary in day-to-day life to make a judgment about space with respect to length, width, depth, distance, speed etc. This ability is necessary for all sorts of academics in which understanding and use of 2-D and 3-D is required. Example: If you are standing in front of a big hall, what can be probable height, width and breadth in feet?

With High Rating

Individuals generally excel in fields such as Architecture, Design, Animation and Engineering.

Your Rating in Spatial Ability is Very Good.

Strengths & Shortfalls

This indicates that you have good judgment of space with respect to length, width, depth etc and also visualize them in 2D and 3D. This also indicates that you will not have any difficulty to excel in the areas like Architecture, Design where 2D, 3D skills are required.

Rapid Evaluation Ability

Meaning

In Rapid Evaluation ability, the perceptual speed and accuracy is measured by items in which the student must rapidly assess the similarity or difference of paired groups of letters or numbers.

Application

Rapid Evaluation ability is important to succeed in many tasks that involve record-keeping, listing and keeping inventories. Rapid Evaluation Ability is required in dispatching, coding and other data management jobs.

With High Rating

Individuals generally excel in speedy and accurate recall of the exact data received from the surroundings. It helps to avoid silly mistakes and take quick actions/find solutions.

Your Rating in Rapid Evaluation Ability is Very Good.

Strengths & Shortfalls

This might indicate that you are able to handle data with speed and accuracy and can manage such tasks effectively.

Improvement

You can still enhance this ability by handling large data gathered by reading and paraphrasing.

Cognitive Ability

Meaning

This ability refers to the set of abilities, skills or processes we need to carry out any task (complex or simple). They have more to do with the mechanisms of how we learn, remember, problem-solve and pay attention

Application

This ability is essential in all learning situations and to complete all sorts of academic courses. Example: You are asked to talk in your own words on a new science concept taught in your class.

With High Rating

An individual gets an extra edge in all learning situations and also completes any academic course very well.

Your Rating in Cognitive Ability is Very Good.

Strengths & Shortfalls

This indicates that you like keen observation. Supported with efforts you will achieve what you want. You can learn and grasp new things quickly.

Improvement

You can enhance this ability by reading, listening, thinking over the information gathered and solving the problems independently. Reading and writing summary of whatever you have read will help you in the long run.

What is personality?

Personality is the sum total of all the different ways in which a person reacts and interacts with others. Personality is the product of the combined effects of heredity and environment. Personality test helps in understanding your personality type, in understanding your inner self, why you behave or make decisions in a certain way.

Your dominant personality traits are: **Creativity (Cr) + Individualism (Id) + Excitability (Ex) + Social Warmth (Sw) + Guilt Proneness (Gp) + Maturity (Ma).**

Adaptability (Ad)

Your score is - High

This dimension checks an individual's accommodating, accepting and adjusting nature to various situations easily.

High scorers

"I like using the latest technologies." Or "I am comfortable at multi-tasking work."

Low scorers

"If it has to be done, then it's my way or else forget about it."

Boldness (Bo)

Your score is - Low

This dimension checks one's comfort level in various social situations. Generally, they are adventurous, responsible and energetic by nature.

High scorers

"I don't hesitate in taking my decisions and I like to take decisions quickly."

Low scorers

"I am shy in expressing myself and I avoid open competition."

Competition (Co)

Your score is - Low

This dimension checks an individual's independent minded, uncompromising and assertive nature.

High scorers

"I like to put my own ideas into practice and enjoy having done things in my way."

Low scorers

"I am not comfortable in participating in groups and representing problems."

Creative (Cr)

Your score is - High

This dimension checks an individual's originality and fluency in thoughts and elaborative thinking.

High scorers

Actively seek new solutions to problems and express themselves in various art forms.

Low scorers

Have little inclination for original thought. Generally, they are impatient but are warm hearted and cheerful types.

Enthusiasm (En)

Your score is - High

This dimension measures the feeling of energetic interest in a particular subject or activity. It also measures the eagerness to be involved in it.

High scorers

"I am happy to face new situations and I like to convey my thoughts and feelings to others."

Low scorers

"I am always serious about my tasks and generally I feel comfortable about my achievements."

Excitability (Ex)

Your score is - High

This dimension checks how an individual is impatient, mind – wondering, distracted, demanding and hyperactive in behaviour and thoughts.

High scorers

"I face difficulty in concentrating on studies when other friends are playing around."

Low scorers

"I can concentrate on my work even in noise and emotional tension."

Guilt Proneness (Gp)

Your score is - High

This dimension checks an individual's tendency to avoid responsibilities. Also checks Insecure and depressed nature.

High scorers

"I cannot manage this deadline for my project / assignment, my teacher is definitely going to punish me."

Low scorers

"Even in demanding situation I can manage my duties and responsibilities without excess tension."

Individualism (Id)

Your score is - High

This dimension checks how an individual is a loner, likes to be internally restrained and avoids group action.

High scorers

"I like to carry out the activities in my own way."

Low scorers

"I always look forward for group activities even though I am not leading the team."

Innovation (In)

Your score is - Low

This dimension checks how an individual goes for experimental thinking, gets liberal ideas and analyzes concepts swiftly.

High scorers

"Old traditions should be replaced in the light of scientific approach."

Low scorers

"We must stick to age old customs and traditions." "Old is gold."

Leadership (Ld)

Your score is - Low

This dimension checks the tendency to motivate and lead others, taking charge, direct and initiate actions for a group, power to influence others, achieve goals etc.

High scorers

"As a leader, I have to take others to act through my actions and words."

Low scorers

"I prefer to work under someone else's leadership."

Maturity (Ma)

Your score is - High

This dimension checks how an individual is realistic about life and emotionally stable. This dimension may be taken as an indicator of stress handling.

High scorers

Handle situations related to their family, life situations, own health etc comfortably. Tend to take decision in a more practical or subtle way which won't harm anyone – emotionally or physicality .

Low scorers

Generally gets easily annoyed by things and situations, may show discomfort to the restrictions they face in life.

Mental Health (Mh)

Your score is - High

This dimension measures the state of psychological and emotional well-being that enables an individual to work, love, relate to others effectively and resolve conflicts

High scorers

Able to achieve personal goals and do not get distracted while working on some project.

Low scorers

Poorly adjusted and less satisfied with their life situations, family and health.

Morality (Mo)

Your score is - Low

This dimension measures the personal or social set of standards for good/bad behaviour and character. The quality of being right, honest and acceptable.

High scorers

Tend to be more persistent, respectful of authority and more conforming to the standards of the society.

Low scorers

Are poorly conforming to the standards of the group and they are less respectful about the authority. They are low on self discipline.

Self Control (Sc)

Your score is - Low

This dimension checks how an individual holds high self image, and is socially conscious and has strong will power.

High scorers

Demonstrate socially approved character, responses, behaviour control and foresight. They are considerate towards others.

Low scorers

Find it very difficult to keep emotions and behaviour in order.

Sensitivity (Se)

Your score is - High

This dimension checks how over protected, dependent, impatient and attention seeking he/she is.

High scorers

Are generally tender minded, dependent, over protected and generally insecure.

Low scorers

Represent some sort of tough, masculine, practical, mature and realistic dimension.

Self Sufficiency (Ss)

Your score is - Low

This dimension checks the state of not requiring any aid, support, or interaction, for survival; it is therefore a type of personal autonomy.

High scorers

Are confident, resourceful and good at problem solving.

Low scorers

Prefer to make decisions with people and have a tendency to depend on social approval and admiration.

Social Warmth (Sw)

Your score is - High

This dimension checks how outgoing, participative and warm hearted he/she is.

High scorers

Are usually very warm hearted, likable and easy to get along with. They are more likely to share their feelings with others and enjoy social recognition.

Low scorers

Are uncompromising, prefer things than people. They are less likely to share their feelings with others.

Tension (Tn)

Your score is - High

This dimension checks the level of mismatch between what the environment demands of you and what you think are your coping abilities. Traits like tense, high energy, impatient, driven, time driven, irritable, accompany stress.

High scorers

Get tense and anxious over small things. They are easily fatigued.

Low scorers

Tend to be relaxed, peaceful and satisfied.

Interest is the tendency to attend to and be stirred by a certain object, event or process. It is accompanied by 4 attributes:-

- Attention and feeling for an object
- Intensity (preference for some activities over others) and
- Duration

Your interest is always at the core of your career decisions and that is why it is absolutely necessary to identify your interest in a particular area. People whose interest matches with their occupation find greater deal of satisfaction; it makes them more productive and also results in higher levels of motivation. Checking your 'core interest' through Interest Test results in increased chances of success in the career.

Your interest graph shows an inclination towards: Creative and Designing, Communication and Media, Business and Management.

Your scores indicate that your interest is very specific! We suggest you to explore some more areas similar to your specific area of interest which could serve as a backup plan, if needed.

Communication and Media

Your level of interest is Specific

Mass communication is the medium that is intended for a large audience by means of various technologies. It may take any form; broadcast media like television, films and radio, or print media like newspapers and magazines or web media like internet, blogs and electronic media like mobile phone, computer, tablet, etc. All these mediums provide means for quick communication to the masses.

What does the score indicate? - Individuals whose score show marked preference in this area generally enjoy work involved in fields like journalism, advertising, radio, films, newspaper industry, publishing houses, public relations, TV channels, etc.

Creative and Designing

Your level of interest is Narrow

Creativity means having the ability to create something novel or original. It involves imagination and innovation.

What does the score indicate? - Individuals whose score show marked preference in this area generally enjoy working in creating various art forms like creative drawing, thinking, writing, visualising, designing, etc.

Science and Technology

Science is study of physical world based on observation and experiment. Technology is application of scientific knowledge for practical purposes.

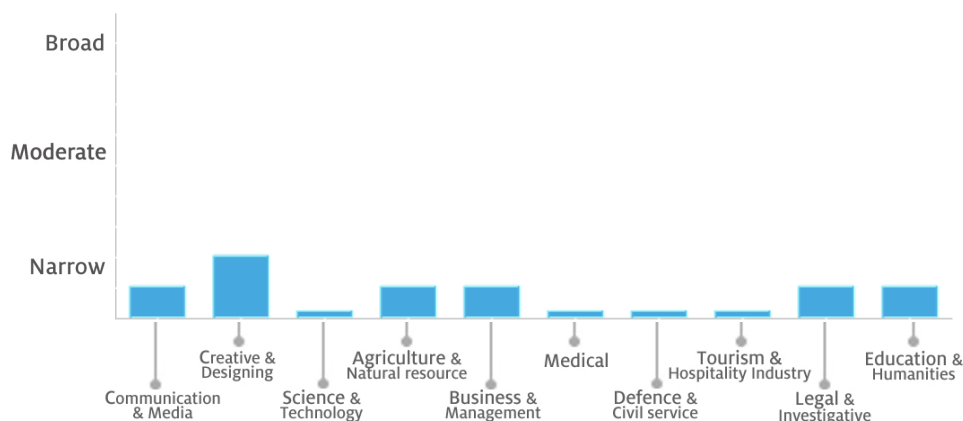

What does the score indicate? - Individuals whose score show marked preference in this area generally enjoy investigating, researching, analyzing and experimenting.

Agriculture and Natural resource

Your level of interest is Specific

Agriculture and natural resources includes a wide variety of options - cultivation of soil to produce crops and plants, food science, animal husbandry, etc

What does the score indicate? - Individuals whose score show marked preference in this area generally enjoy working outdoors in agriculture, forest with animals, plants etc.

Business and Management

Your level of interest is Specific

Business and Management involve managing and organising a commercial activity. It includes planning, directing, controlling, coordinating, budgeting and decision making.

What does the score indicate? - Individuals whose score show marked preference in this area generally enjoy working with people and settings where they can lead, discuss ideas and inspire others into action.

Medical

Medical sector include work which involve identification of a disease from its symptoms and providing professional treatment for illness or injury.

What does the score indicate? - Individuals whose score show marked preference in this area generally enjoy helping to prevent, diagnose or cure diseases through laboratory work, or by attending to the health needs of people directly.

Defence and Civil service

Defence means protecting one's nation against all threats and enemy on land, seashore and in air. Civil services means working as government employees carrying out the job of administration of the country, and implementing the policies of the ruling government.

What does the score indicate? - Individuals whose score show marked preference in this area generally enjoy working in situations where it is required to supervise, direct and monitor people's work. They hold virtues like discipline, commitment towards work, love for nation, etc very high.

Tourism & Hospitality Industry

Tourism and hospitality sector include services involving the hospitality, reception and entertainment of customers. This may be for travel arrangements, hotel stay, restaurant or club services or providing services at entertainment parks.

What does the score indicate? - Individuals whose score show marked preference in this area generally enjoy providing the public with services involving personal contact. Also they like working towards providing various qualitative services to people for their comfort and leisure.

Legal and Investigative

Your level of interest is Specific

Legal Advice means interpretation and application of law to a given set of facts. The range and diversity of career options with a law degree is unmatched to any other professional degree. Investigation is the process of finding the details or facts about something to discover who was behind it, what the cause is or how this thing happened.

What does the score indicate? - Individuals whose score show marked preference in this area generally enjoy work which involves investigation, advising, counselling and guiding others.

Education and Humanities

Your level of interest is Specific

Education includes a broad distribution of courses which emphasize the acquisition of knowledge, comprehension and evaluation of ideas and the ability to think constructively.

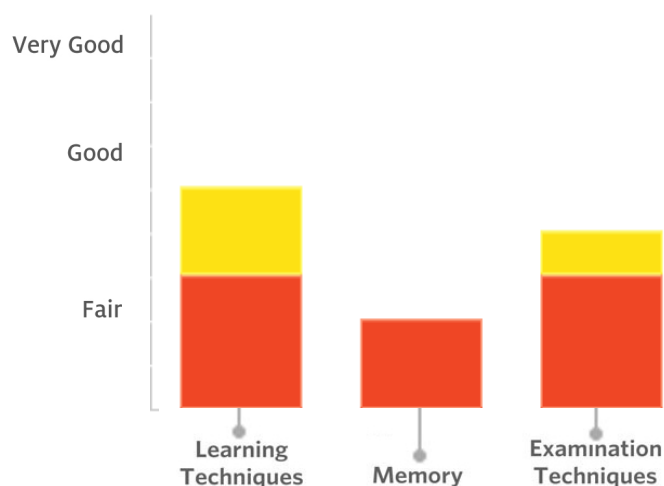

Humanities explore human condition using theories, methods and research findings related to human behaviour and interaction.

What does the score indicate? - Individuals whose score show marked preference in this area generally enjoy instructing people in learning new things, helping people solve problems, and assisting others.

Study Habits

Alma Mater's Study Habits test assesses an individual's style, techniques and constancy about study skills and methods that one has formed during school years. The test evaluates an individual on three key elements i.e. Learning techniques, Examination techniques and Memory. Good study habits are considered essential for acquiring good grades and also help in effective learning to secure a bright career.

Learning Techniques

Your Rating In This Category Is Good

It is a combination of your methods and ways for effective learning. It includes

- Time management
- Reading habits
- Note taking
- Learning motivation

Memory

Your Rating In This Category Is Fair

Memory is the ability to remember subject oriented information, experiences and people. **Improving memory means learning better.**

Examination Techniques

Your Rating In This Category Is Good

Examinations need careful preparation, many feel nervous on the examination day but with careful revision and good examination techniques you can do well.

Learning Techniques

It is combination of your methods and ways for effective learning. It includes Time management, Reading habits, Note taking and Learning motivation.

Your rating in this category is Good

Time Management

Judicious usage of available time by scheduling helps to adjust study periods and extracurricular activities according to the need of a student.

Suggestions

- **Prepare and Follow "To Do List"** - as a Daily/weekly planner to write important study activities. Do the same for monthly activities so that you can plan in advance.
- **Avoid Interruptions and Distractions** - Learn to say 'No' according to your study plan to basic distractions e.g. internet, games mobile, TV etc.

Reading Habits

Reading involve various aspects such as vocabulary, reading speed, comprehension and selection of reading material.

Suggestions

- **Reading Speed** - Generally, one reads 100 words per minute in mother tongue and 50-75 in any other language. As a habit, read few words; understand their meaning and usage on a daily basis.
- **Read Early in the Day** when your mind is clear and sharp as your grasping is at its best.
- **Read in the Proper Position** - Angling your reading material at 45 degrees improves reading speed and reduces eye strain. Avoid reading on a bed. Always prefer to sit on a chair.

Note taking

1. It improves attention, concentration and memory. Reinforces learning of the material and makes reading a more active process.
2. It provides concise version of all the essential information needed for quick revision

Suggestions

- **Paraphrase in own words**, write key words and summarize to make personal notes. The best effective order while taking notes is: Listen -> Look -> Think -> Understand --> Paraphrase --> Make Notes
- While reading, underlining important points and preparing notes is helpful.

Learning Motivation

Desire to learn is a determining factor in learning. Learning is quick and retention is longer if interest and desire are high. Capacity to learn is unique. While some are group learners, others are self learners. Determine your true learning style and go ahead brilliantly.

Suggestions

You can boost your motivation in some of the following ways:

- Set short-term goals and give yourself a reward when you achieve a target.
- You should target for zero option for all subjects.
- Find a source of inspiration: who or what could inspire you to complete your goals?
- Positive self-talk like "I am going to prepare perfectly for this exam." improves your motivation.

Memory

Meaning

Memory is the ability to remember subject oriented information, experiences and people.
Improving memory means learning better.

Your rating in this category is Fair

Suggestions:

Some techniques to improve your memory-

- **Relax Your Mind** – Being relaxed allows us to think clearly. Thus, we tend to perform effectively and efficiently. Under tension we struggle to remember information..
- **Use Your Body and Senses to Improve Your Memory** - It has been said that people remember 90 percent of what they do, 75 percent of what they see and 20 percent of what they hear.
- **Mental Imagery** - Use visualization by creating mental images that you can associate with the information you are trying to learn. The more visual you can make the learning process, the easier to remember the information.
- **Acronyms** - Use of acronyms can be helpful when a list of facts or sequence of items must be remembered. Acronyms can be created to remember a specific item. For example, VIBGYOR to remember names of colours– violet, indigo, blue, green, yellow, orange and red.
- **SQ3R Technique** - A reading and study skill system which helps in improving memory i.e. survey of study material then forming questions on it followed by reading, recalling and reviewing the material helps in better recall.

Examination technique

Meaning

Examinations need careful preparation, many feel nervous on the examination day but with careful revision and good examination techniques you can do well.

Your rating in this category is Good

Suggestions:

Before the exams-

- Devote more time and attention towards weak areas
- Even Under nervousness/ pressure never study the entire night before a paper. Mind gets clogged and you might forget what you knew nicely also.
- Having a calm, cool and relaxed attitude towards examination is beneficial and can be gained only after good preparations.

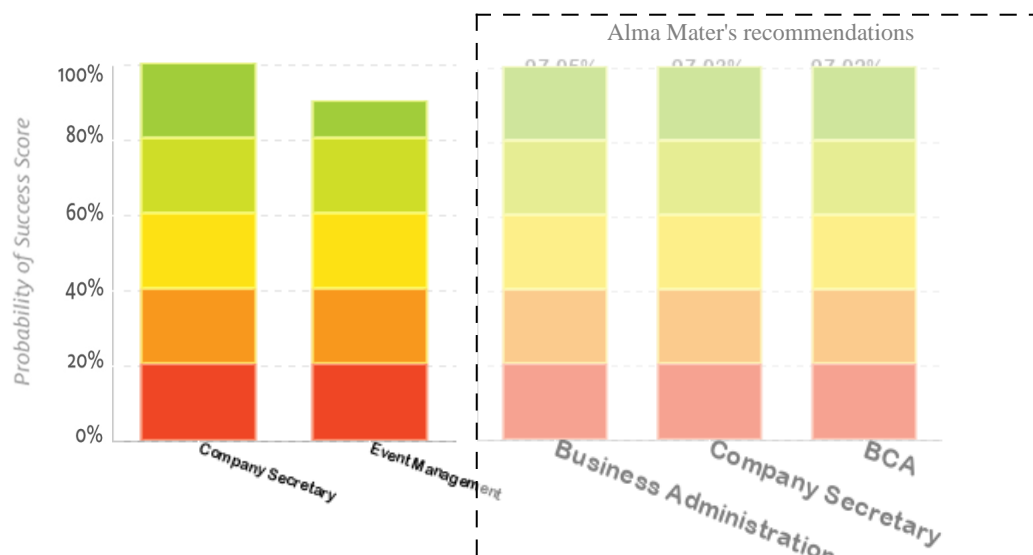

Once you get the question paper-

- Read the entire exam paper carefully.
- Mentally plan how you will answer the paper with respect to allotted time. Start with the easiest questions.
- If you are running out of time and you can't write sentences then just write in bullet points. If you don't have time to do the calculations, write and explain what calculations you would do.
- Never leave an exam hall early. You can utilise available time for checking and rechecking. There is always something you can do to improve your answer sheet.

Kareena Karnawat 12th Std

Your top 2 aspired careers are assessed on the basis of your results in Aptitude and Personality Tests. If you have strong interests or if you think that your personality is suited for a certain career, you still need the relevant abilities to support that career.

Company Secretary

*Your suitability for this career – **Perfect!***

Your Rapid Evaluation Ability is Very good, Reasoning ability is Very good, Cognitive Ability is Very good, Verbal ability is Excellent. This is supported by Spatial ability, Numerical ability.

The combination and level of abilities that you possess makes this career a perfect match for you.

However, if you really want to touch the sky, you need to maintain the performance standard in your studies as well as in the Rapid Evaluation Ability, Reasoning ability, Cognitive Ability, Verbal ability.

Event Management

*Your suitability for this career – **Perfect!***

Your Spatial ability is Very good, Rapid Evaluation Ability is Very good, Reasoning ability is Very good, Cognitive Ability is Very good, Verbal ability is Excellent. This is supported by Numerical ability.

The combination and level of abilities that you possess makes this career a promising one for you.

However, if you want to make this a 'Perfect' career choice, you will have to improve the performance standard in studies and need to work on Rapid Evaluation Ability, Reasoning ability, Cognitive Ability, Verbal ability.

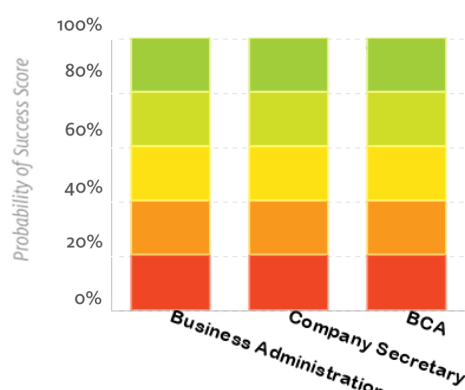

The suitability range for careers fall in the following categories: Perfect(Pf), Promising(Pr), Passable(Ps) and Please Avoid(Pa).

Overview

Business administration is prominently known for instilling professional business skills. Business administration is the process that makes students or candidates learn all about managing business functions such as finance, management, marketing, services etc. Business Administration has become prominent with the rapid growth of industrialisation which made the industries think of a scientific approach towards business to attain stability, growth and profitability. In Business administration one can go for specialized fields like HR, Marketing, finance, operations and these are the most paid professions of this era. This is a target and achievement based profession which will offers you unlimited career opportunities, a promising place to get rewards in form of good status, Scope & remuneration

Key to Success

- Ability to motivate and work as part of a team
- Ability to understand and solve problems
- Quick thinking and the ability to come up with new ideas?

Skill set

- Good communication skills
- Analytical skills
- Leadership potentials
- Presentation skills

Scope and opportunities

The career growth for those with an MBA degree from one of the prominent institutes of the country is sky high. Business managers are required in almost every sphere of business. One can even change the kind of company one is working for mid way through one's career. However, establishing oneself in one company by working for a considerable number of years adds a lot to one's resume. Then, one may find it easier to migrate to some other kind of company if wishes to.
